POLICY STATEMENT

Intent:

Christian Heritage College (CHC) recognises that, during the period of study of an overseas student at CHC, an incident may occur which can be defined as a critical incident. As a Christian academic community, CHC is very concerned for the care of its students and therefore places great importance on a policy and plan which will ensure that overseas students are cared for in the event of a critical incident. The intent of this policy is to articulate a plan for delivering a timely and coordinated response to critical incidents and to ensure that the reported critical incidents are:

- Responded to, or resolved, in the best possible way for the student(s), their families and CHC;
- Reported to relevant officials within CHC and government agencies, and communicated to students' families in appropriate ways;
- Managed in a manner to ensure that negative publicity, both locally and overseas, is not generated from an incident.

Scope:

Restricted to: All overseas students undertaking a course of study at CHC.

Excluded: Domestic Students.

Objectives:

1. To ensure compliance with the *National Code of Practice for Registration Authorities and Providers of Education and Training to Overseas Students 2018* (the National Code), specifically Standard 6.
2. To provide CHC with a clear procedure for managing the impact of a critical incident as they relate to and affect overseas students.

Policy Provisions:

1. General

- 1.1 The National Code 2018 Standard 6 defines a critical incident as *'a traumatic event, or the threat of such (within or outside Australia), which causes extreme stress fear or injury'*.
 - 1.1.1 This does not include serious academic misconduct
- 1.2 It is an event that causes individuals to experience a strong emotional reaction that interferes with their usual coping skills. The event has a level of trauma that is beyond the normal experiences of those affected.
- 1.2 The resulting stress reaction may include emotional, physical, behavioural and/or cognitive changes evident either at the time of the incident or later. The impact of a critical incident may affect any member of the CHC community, not only those directly involved.
- 1.3 Some examples of critical incidents to which CHC staff may have to respond are listed below. This list includes examples only and is not intended to be exhaustive:

- 1.5 It is the responsibility of the Vice President – Academic to determine the appropriate course of action for each type of critical incident. In extreme cases, the Vice President - Academic will consult with the CHC CEO and Vice President – Advancement and Operations and may call an immediate meeting with the CHC Executive to determine the appropriate course of action.

2. Key Personnel
